PROPERTY ASSESSED CLEAN ENERGY
Financing

The City of Moreno Valley has adopted Property Assessed Clean Energy (PACE) financing that allows property owners to fund energy efficiency, water efficiency and renewable energy projects with little or no upfront costs.

With PACE, residential and commercial property owners living within a participating city can finance up to 100% of their project and pay it back over time as a voluntary property tax assessment through their existing property tax bill.

In order to allow for competition and customer choice there are five approved providers listed to choose from:
